SHOCK
ADVENTURE PARK ATTRACTIONS

Shock Adventure is at the forefront of trampoline park safety. Our patented design reduces injuries on a scale never before seen in the industry. Fabricated in the U.S.A., Shock's patented design includes shock-absorbing suspension mounts, a connection system with a pivoting horizontal bed rail, and a German gas-shock system incorporated directly into the trampoline framework. Shock systems are designed by experienced park operators for the ultimate safe jumping experience!

From our patented structure design, to our world-class materials, Shock offers innovative technology to help you build safe, cutting-edge parks.

SAFETY IS YOUR #1 PRIORITY

YOU CAN'T PATENT GIMMICKS!

SHOCK TRAMPOLINE
QUALITY FIT PADDING

FREESTYLE COURTS

A Shock Adventure freestyle court is the main attraction of your park. With unlimited interconnected trampolines, tumble tracks, spines, jump boxes, and banked flip walls, the possibilities are endless.

WE DESIGN THIS AREA TO INCLUDE AS MANY VARIOUS FEATURES AS POSSIBLE FOR THE SPACE ALLOWED

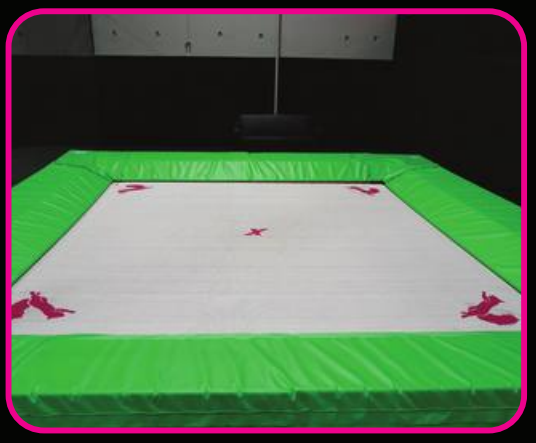

Your customers are bound to enjoy the freedom to jump around this oversized playground!

PERFORMANCE TRAMPOLINES

HIGH-PERFORMANCE TRAMPOLINES OFFER AN ADRENALINE RUSH FOR ALL!
Olympic trampolines are wildly popular in the industry and can be paired with running walls, airbags, or foam pits for a whole new level of fun! For a truly crazy experience, Shock also offers super trampolines for projects that have great enough ceiling clearance. Our newest performance trampoline is the Butterfly trampoline. Inspired by the circus, this attraction includes two, angled Olympic trampolines with a small bed in-between. Jumpers bounce back and forth between the angled Olympics to their heart's content!

Combine a performance trampoline with 'wallrider" from rugged interactive for an interactive gaming experience.

Butterfly Trampoline Court Available!

AIR BAGS

Air Bags are a fantastic foam pit alternative. Air Bags offer greater benefits for health, hygiene, safety, jump frequency, and durability. Shock designs your park to include energy-efficient blowers. Our Air Bags also include custom branding and design capabilities! All air bags are certified for quality and safety, while also providing extra-soft landings and superior functionality to a standard foam pit. Air bags also allow for gradual impact absorption rather than the sudden impact absorption utilized with foam. Last, but not least, Air Bags help your bottom line because there is no need to perform cumbersome foam cleanup or replacement!

AIR TRACKS

“Air Tracks” or “Spring Floors” are not substitutes for trampolines. Air Tracks offer a broad range of new possibilities to your park. They are bouncy enough for jumping, and soft enough for landing! You can add a bubble soccer court, air track parkour obstacles, tumble lanes, or combine them with trick logs to create the perfect way to launch into a foam or air bag pit! Air tracks are also perfect for any athlete looking to improve their tumbling skills. With little to no maintenance expense, customized Air Tracks have become a popular attraction in the industry. Custom branding is also available for Air Tracks.

CONTACT US TODAY TO DISCUSS YOUR CUSTOM AIR TRACKS OR SPRING FLOOR

KIDDIE COURTS

Our Kiddie Courts are scaled-down for smaller children to enjoy many of the larger features in an environment better-suited for supervision. Shock customizes an area of your park that is out of the way from the older jumpers and meets your specific space and layout.

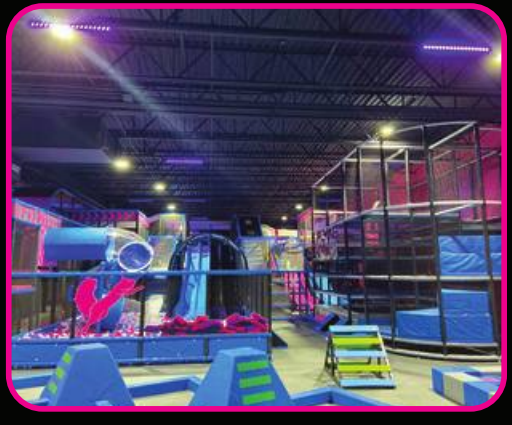

SOFT PLAY ADVENTURE PARKS

Active play makes for healthy, happy kids! Recapture the magic of childhood as you explore our floor-to-ceiling jungle playground, slides, climbing walls and unique kids ropes course! You have to see it to believe it!

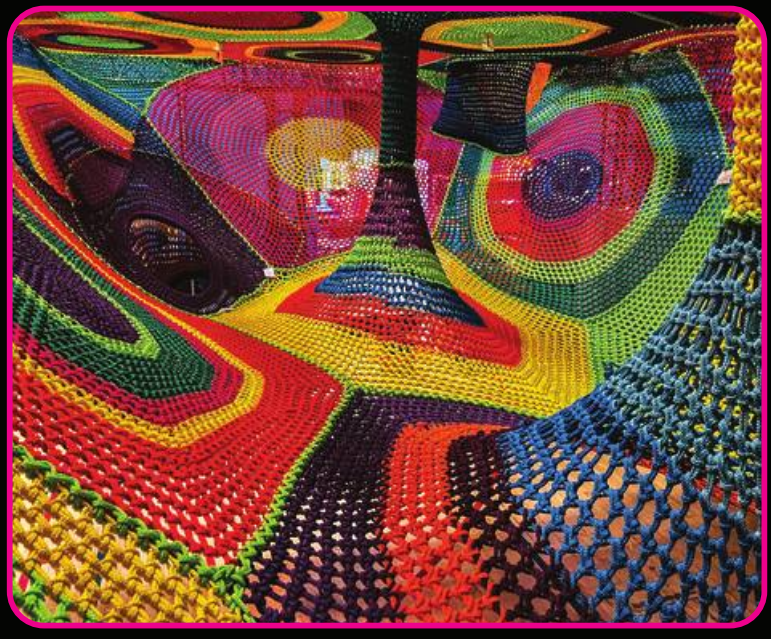

CROCHET PLAYGROUNDS

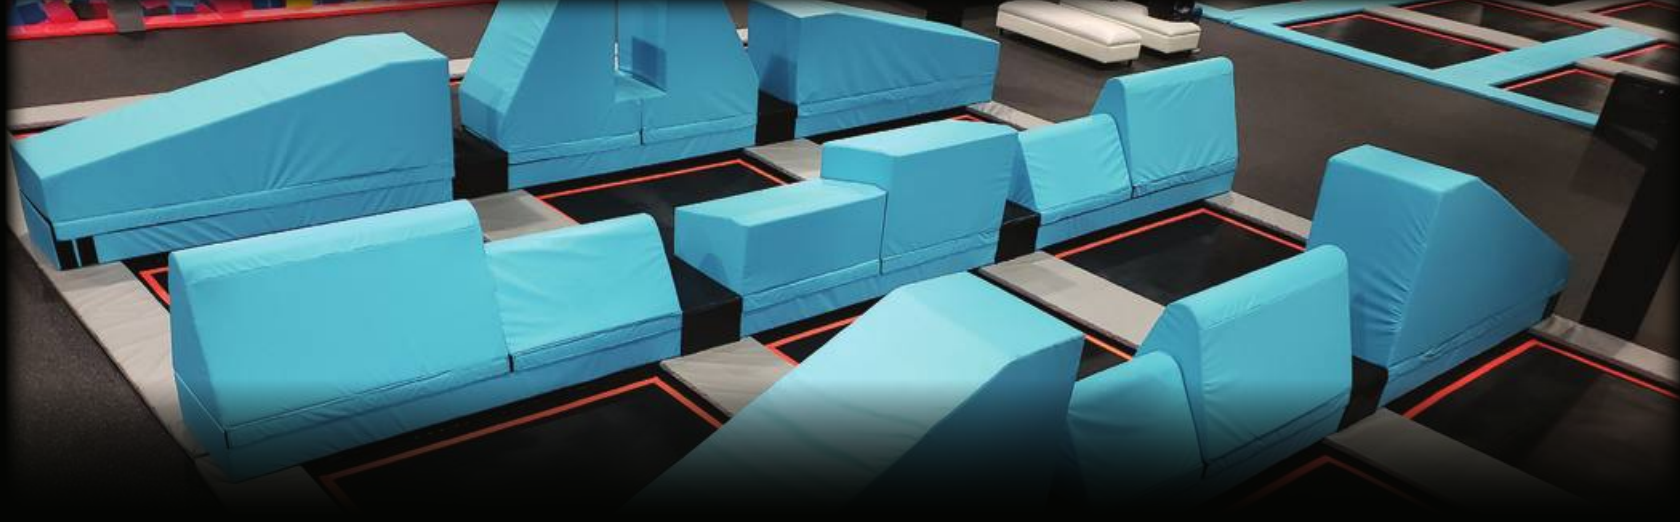

Shock Crochet Playgrounds is an innovative concept in the amusement industry. It is created to develop children's imagination and creativity, offering endless choice of shapes, sizes, and colors, stimulating their balance with various difficulty levels.

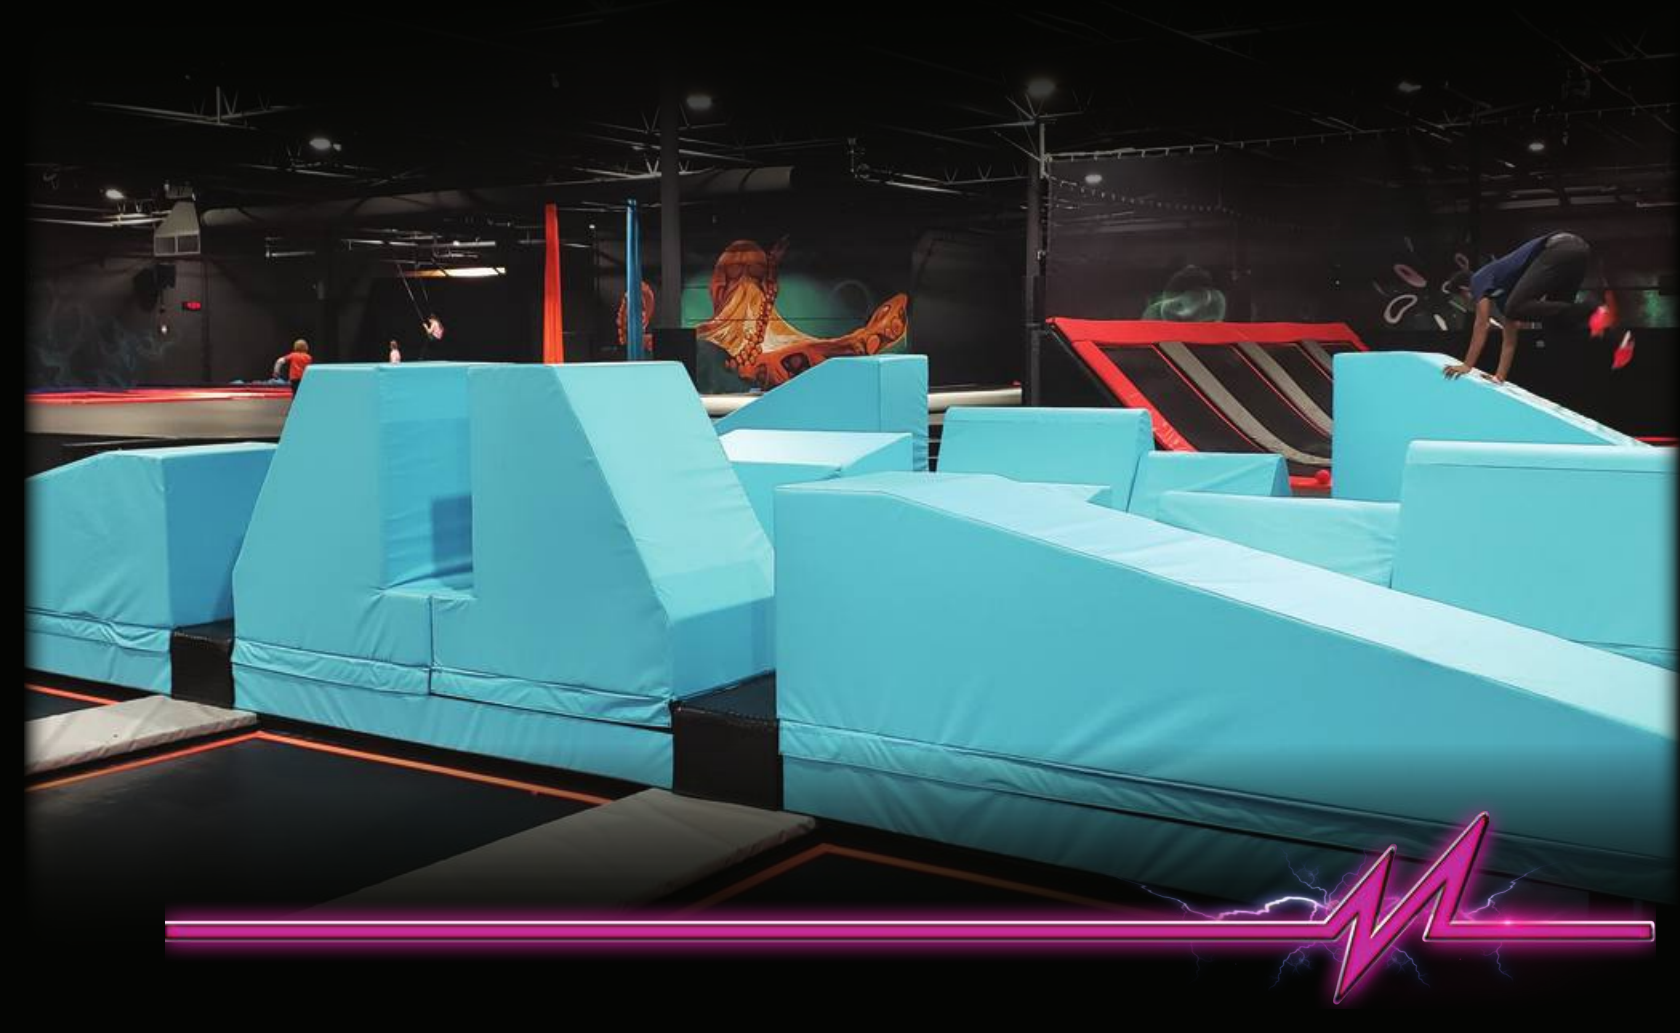

OBSTACLE COURTS

ADD SOME FUN TO YOUR MAIN COURT!

Shock continues to add new features to their already innovative catalog of items with the newly released Shock Obstacles! These fun obstacles come in both vinyl and Military-grade Cordura fabric and offer both standard and glow colors. These obstacles offer bolt-on installation and work for both new, and existing trampoline parks. Our interchangeable design allows you to switch up your design in minutes to keep your park features fresh!

Rubber Diamond Plate Tread Options provide a walk through passage between obstacles! Rubber Diamond Tread Option Available

OBSTACLE COURTS

With the Shock universal bedrail connection system, our obstacles can securely attach to all trampoline park structures. Simply remove your trampoline pad, install the bracket and base obstacle, and choose your style of main obstacle to install. The two-part obstacle design allows any obstacle to be swapped out with ease without removing the base.

Now you can change your obstacle layout to refresh your attraction anytime!

UV Reactive Vinyl & Cordura options Available

Vinyl & Cordura Parkour Obstacles with optional rubber diamond plate tread

Shock parkour obstacles allow your customers to use their natural ability and free running movements in a unique trampoline environment. Upgrade your new or existing park with a variety of Shock obstacles.

FOAM PIT & AIRBAG FEATURES

Combine a foam pit or air bag with a variety of other attractions for a fun way to fall safely

SLACKLINES

A test of balance and patience, add uv glow reactive accents to make your slack line stand out!

CLIMBING WALLS

We offer a variety of different styles of climbing walls. A foam pit or air bag provides a fun and safe landing zone

SWINGS

Swings are a fun way to launch into a foam pit. we can build a rope swing, trapeze style swing, or a traditional sit down swing.

LAUNCH LANES

Launch Lanes incorporate our patented shock attenuating technology to provide the safest landing experience possible. Our launch lane framework will absorb jumpers falling short of the impact zone and our gas shocks will slow them down to ensure a safe landing.

BATTLE BEAMS

Shock custom builds a balance beam over a pit of foam or an airbag for your customers to battle with foam joust sticks! Add UV glow reactive accents to make your battle beams stand out!

FOAM PIT COVERS

In terms of health, hygiene, durability and budget, the Shock Foam Pit Cover is the only alternative for low impact foam pits. We understand your cash flow is tight and replacing your foam pits with airbags may not be a solution for you right now. We designed the ultimate anti-viral and anti-bacterial cover with a future airbag upgrade feature at a reduced airbag cost.

ANTIVIRAL UV GRAPHIC FOAM PIT COVER - $19.00/per sq. ft.
ANTIMICROBIAL VERSION 2.0 FOAM PIT COVER - $10.00/per sq. ft.

- Custom built for your park
- Anti-viral & anti-bacterial
- DIY install design
- Future airbag upgrade design
- Proprietary Reflex Apron Design
- Easy Foam Fluff Access
- No Dust Feature
- Reduced Payroll Expense

CLIMBING WALLS

Transform your customers into thrill-seeking cliff hangers with custom traverse/clip-in climbing walls and bouldering walls! All shock climbing walls are custom-built and designed with your colors and branding to fit your space.

CLIP IN HARNESS

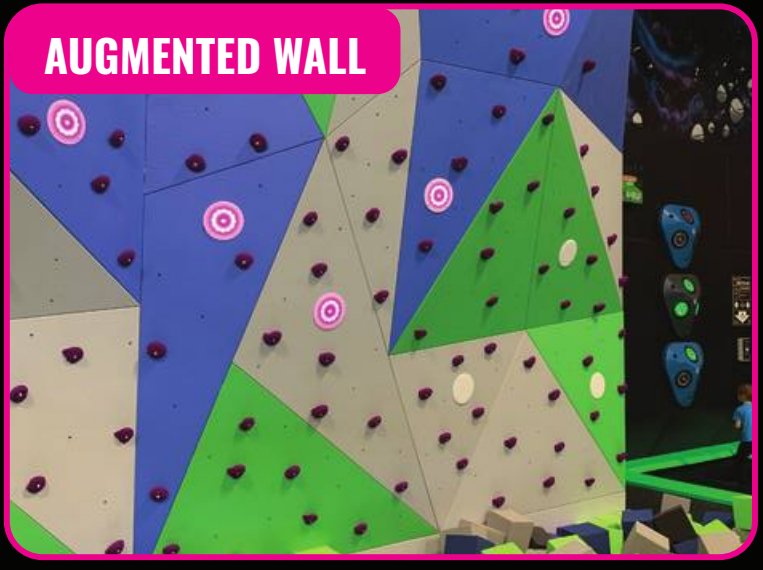

ANT FARM

3D TRAVERSE WALL

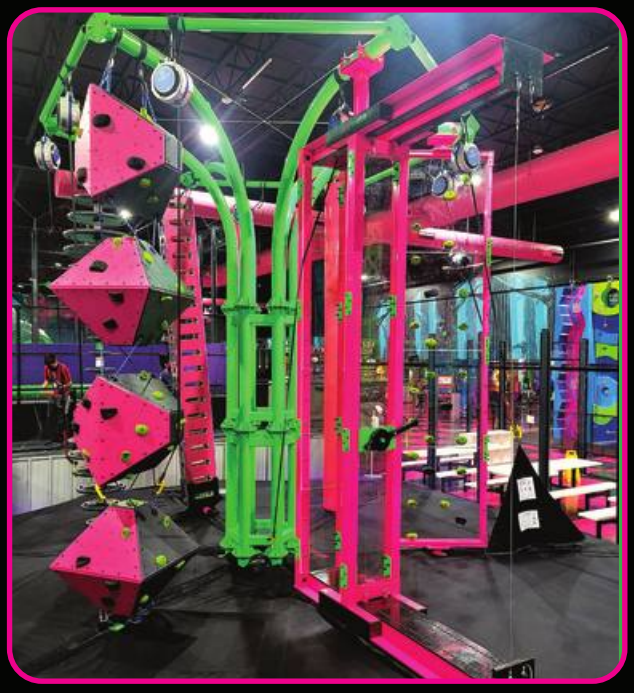

AUGMENTED WALL

KINETIX ACTION TOWERS

All Ages and Abilities
Enjoy expanded customer demographics with Action Elements appealing to kids, adults, beginners and experts alike.

Modular
Easily swap out Elements and Add Ons to keep your Action Tower fresh and exciting.

Fits Any Facility
Three Tower types and heights to fit any facility.

Freestanding
Freestanding design eliminates the cost and hassle of site-specific engineering.

Kinetic
Dynamic elements enable a truly three-dimensional, kinetic climbing experience.

CLIMBING WALLS

Looking for an affordable way to update your facility with a new attraction? One that will help draw in more customers and increase revenue without breaking the bank? A DIY Climbing panel system is a perfect solution! If you have an empty wall in your facility, Shock Adventure can help turn it into an all-ages climbing area, with many different colors, textures, and shape options, we can help you add a custom Climbing area with little effort or money spent!

CLIMBING WALLS

Stand out from the crowd with these colorful, on-trend climbing challenges. For over 20 years Spectrum Sports Intl has been creating commercial-grade climbing projects. Shock Adventure is proud to offer these walls as the Spectrum Sports partner in the trampoline park industry. We will work with you to ensure your project is safe, on budget, and looks amazing. You can't lose when pairing some of the best climbing with the best trampolines in the industry!

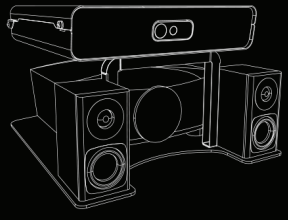

VALOCLIMB

ValoClimb® is the world's first augmented climbing wall that comes with several interactive games. Games contain dozens of modes and plenty of different levels. Game selection covers single and two-player games. This interactive game platform invites anyone, from the youngest kids to hard training adults, and get a great physical exercise.
Even the audience is easily captivated by the games. People often spontaneously participate by cheering and shouting instructions.

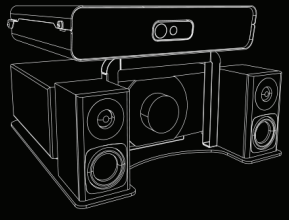

AUGMENTED CLIMBING WALL PERFECT FOR ANY INDOOR LOCATION.

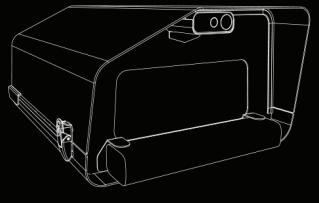

Valoclimb 6k

- Suitable for most indoor venues with dim lighting & regular dust levels

Valoclimb 9k

- Best Visual Experience
- 50% Brighter than 6k & Dust Product Models
- Standard protection from dusty locations such as shopping malls/nearby foam pits

Valoclimb Dust Protect

- All encompassing dust & impact protection casing for climbing gyms

THE INTERACTIVE TRAMPOLINE GAME PLATFORM

ValoJump Brings an innovative twist to trampolining: the player literally jumps into the game. This immersive digital experience will keep anyone entertained from beginners to experienced trampolinists. Players participate in a real sport and get a real workout while having fun!

ValoJump Model 86

ValoJump Model 55

RUGGED INTERACTIVE

Rugged's Freestyle Duo, SkyPods, High-9, DodgeAttack and TriggerTrac products are all about making trampolines even more fun! Trampolining has many benefits, but introducing interactive technology can enhance the players overall experience, giving your customers a strong incentive to come back again and again.

SISYFOX

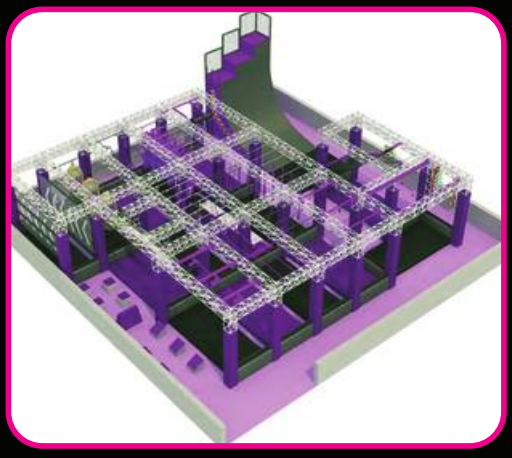

This one of a kind system is designed to service all of your needs: recurring customers, easy maintenance, ever-evolving content, and games for any budget. All of these features are packed into 4 square meters! Minimum space, maximum fun! Sisyfox consists of four major components: the base (with all the tech), the wings that hold the ball in place, the inflatable ball, and a screen to see the game as the magic happens.

NINJA COURSES

Bring out your inner warrior on our Ninja Courses. All custom built with the highest grade of materials that are built for durability and safety in mind. Compete with your friends to see who is the Ultimate Ninja Park Warrior!

DUNK HOOPS

OUR CUSTOM HOOPS ARE FABRICATED TO WITHSTAND HARDCORE DUNKS!
All Shock hoops are built with full-size, commercial acrylic backboards (and padding) with break-away, heavy-duty rims as used by the NBA. Our hoops are positioned perfectly for ballers to launch from the sweet spot on the trampoline to allow for the most air-time to craft the perfect dunk!

DODGEBALL COURTS

STEP UP YOUR GAME WITH SHOCK TRAMPOLINE DODGEBALL COURTS!

The art of outmaneuvering and dodging your opponents projectiles takes on a whole new meaning when played on Shock trampolines! Our dodgeball courts are great attractions for parties, groups, and people from all ages and skill levels. All Shock dodgeball courts are custom-built with our patented shock attenuating technology and made to specifically fit your building's layout.

Shock Adventure offers two types of dodgeball courts.

1. A standard dodgeball court is a square shape and has two sides with four lanes per side. Each side has high vertical walls on each end.

2. Shock also offers extreme dodgeball courts. These courts are long, narrow, and typically have three lanes on either side. Extreme dodgeball also has a spine in the middle, shorter verticals on each end, and also has a small platform on either side for players to start, as well as to stand on when they get tagged out. Both styles provide exciting game play for your jumpers. It all comes down to the style you prefer and what your space will allow!

ZIP LINES

LOOKING FOR SOMETHING TO REALLY LEVEL UP YOUR FACILITY?

We have partnered with the best to bring you ziplines, sky coasters, and more. These new and exciting attractions will give your patrons the most extreme rides of their lives! Whether you are opening a new F.E.C. or simply updating your existing location to bring in new customers, we can help you set up with a new, extreme attraction!

ROPES COURSES

If you have excess ceiling height, put it to good use by providing a ropes course for your customers to enjoy Increase your WOW factor by allowing them to reach new heights with a Shock Adventure ropes Course! Depending on ceiling height, ropes courses are customized to fit your space and can provide multiple levels of challenging obstacles to safely take on! Shock Trampoline offers courses for children and adults alike to make sure everyone can join in on the fun!

INFLATABLE PARKS

ADD SOME EXTRA BOUNCE WITH INFLATABLE PARKS

Our inflatable parks are custom-made to fit your space and company image! They can be designed with your colors, logo, and include only the features you want. From slides, obstacles, moving obstacles, stairs, climbing walls, and more. We can tailor an inflatable park to fit your needs. These custom attractions can be added into an existing park or a new build, and can be setup for smaller children, or kids and adults alike.

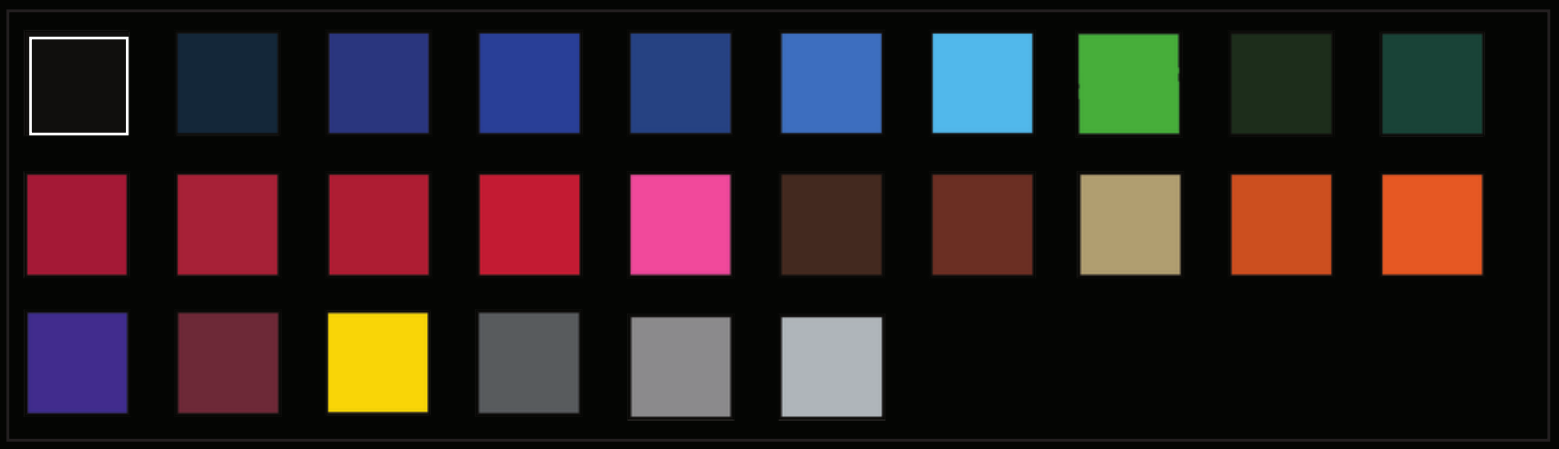

CUSTOM COLORS

We offer custom everything, and that includes colors! We have a wide variety of colors to choose from for everything in your park. Choose custom colors for trampoline pads,trampoline webbing, ropes, joust sticks, slack lines, battle beams, and more.

ADD UV REACTIVE GLOW COLOR OPTIONS FOR EVEN MORE OF A WOW FACTOR!

Vinyl Color Examples:

CALL OR EMAIL US FOR ALL OF OUR COLOR OPTIONS

GLOW MODE

Crank up the WOW factor at your park by incorporating UV Glow products, custom lighting, and sound! We have years of experience working on sound and lighting setups, and we offer a wide variety of UV glow options that will make your park come to life under UV lighting and sound.

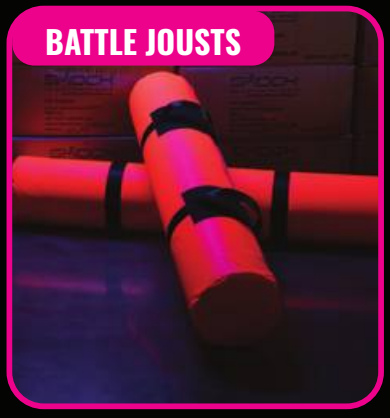

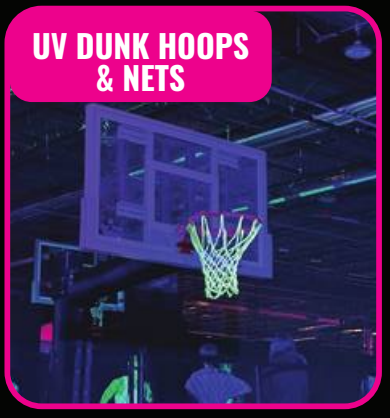

SHOCK

ADVENTURE PARK ATTRACTIONS

TRAMPOLINE PARKS & FEC SUPPLIES

IF YOUR PARK NEEDS SUPPLIES, WE ARE HERE TO HELP WITH FAST AND FRIENDLY SERVICE!

REPLACEMENT MATS & PADS

Making sure your facility is safe and looking as fresh as possible is paramount to the success of a family entertainment center! How are your mats and pads looking? Are your nets still in good shape? Time to spruce up your park? Maybe you are looking to re-brand with new colors or UV reactive features? Shock Adventure is here for your replacement needs! Whether its a single replacement mat with a last minute rip or a full park worth of mats and pads that need replaced, we can get the job done quickly and affordable!

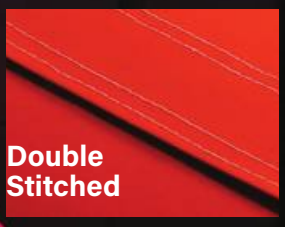

MILITARY GRADE BATTLE JOUSTS

We offer a variety of different joust options. We offer premium Cordura fabric covers that is amongst the toughest material available. We also have a variety of vinyl fabric options. The joust covers can be easily removed for maintenance and care. Each joust is double-stitched for durability, and both Cordura and vinyl have Cordura backing on the handles to resist wear and tear. Jousts are sold in sets of two, and come in a variety of different colors. We also offer UV color options to make them pop!

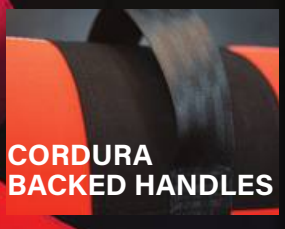

Commercial Grade Specifically developed for the entertainment industry.

UV GLOW OPTIONS

Double Stitched

CORDURA BACKED HANDLES

JUMP RINGZ

U.S. PATENT 11.170.011

IMPACT PROOF & WATERPROOF

LED TIME MANAGEMENT WRISTBANDS FOR FEC'S

Maximize your revenue & reduce your liability

With our super LED time-management wristbands specifically developed for recreational and entertainment venues

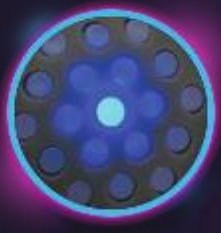

- Increase revenue
- Maximize capacity
- Eliminates "no waiver" liability
- Waterproof & rechargeable
- Streamline staff operations
- Reduce inventory expense
- Eliminate theft & reuse of wristbands
- Super Bright LED flashing for active and expired admission time

POS-Integrated version and non-integrated stand alone version available

Designed to have your staff attach and remove the wristbands.

Bright Blue LED Lights pulse during active admission time. Time activation intervals range from 30 minutes to 300 minutes.

Our magnetic clasp system ensures that only your staff can attach and remove the bands

Bright red LED lights pulse during expired admission time. The red light alerts your staff and the guest that their time has expired.

Bright Red and Blue LED lights make it easy for your staff to monitor active and expired admission time. No more wristband color charts or annoying voice announcements for expired time!

The bands are comprised of soft, antimicrobial silicone that reduces the risk of skin irritation and are easy to maintain. The main puck that houses the electronics of the bands is impact proof and waterproof. The wrist band is scanned upon check-in to activate a specific time interval and the bright blue led lights pulse for active time. When the admission time expires, the LED lights will flash red and remain red to signal your staff and the guest. Now your staff can focus on customer service and enforcing rules instead of memorizing expiration times for wristband color charts. Increase the wow factor to a whole new level of cool!

JUMP RINGZ STAND

- Heavy-duty, acrylic side panels with graphics
- The Jump Ringz stand will charge 150 to 300 Jump Ringz simultaneously
- Individual magnetic band docking system
- Aluminum rails to house charging docks
- 240/120 volt compatible
- Maintain your wristband inventory with ease!
- Custom charging stand graphics and wristband colors*

*Branding available for orders of 5,000 bands or more

RFID ALARM GATE

- Long & Short Range RFID
- NFC Capabilities

HAND SCANNER SPECIFICATIONS (NON-INTEGRATED, STAND ALONE VERSION ONLY)

- Scanner can activate 10,000 bands per charge
- Scanner charge time approximately 4 hours
- 3 preset time designations (can be programmed for two scanner versions with 6 different time limits)
- Haptic (Vibration) Feedback for wristband activation
- Battery power level indicator lights with check button
- Safety cable and clip with wire to prevent accidental drops and misplacement
- Lithium-ion polymer battery
- Increase the Wow factor! Activating the LED wristband with the scanner gun will impress your customers!

FANNY PACK BAND RETRIEVAL SYSTEM

- Court Monitors and staff retrieve the expired wristbands immediately.
- The magnetic release lanyard attaches directly to the fanny pack
- Remove the expired bands and store them in the fanny pack to return them to their charging stand
- The fanny pack retrieval system streamlines your operations

FOAM CUBES

These 8” high quality premium foam cubes, are a must for any sort of facility in the Family Entertainment industry. No trampoline park is complete without them.

Foam cubes are available in the following colors: Black, Blue, Charcoal, Light Gray, Kelly Green, Lime Green, Orange, Purple, Red, and Yellow – custom colors available upon special order.

Sold as 396 Minimum order PER PALLET

SPRINGS

Replacement trampoline springs, designed to withstand the abuse received in a commercial application. Canadian milled and wound to exact tolerances. Coated in a durable galvanized finish. 100% Made in Canada. Meets or exceeds OEM equipment.

- **0.125” Performance, Music Wire**
- **Pre-galvanized finish Measured from the outside of the hooks, unstretched**

SHOCK GRIP SOCKS

At Shock, we want to provide our customers with more than just the safest trampoline park system in the world. We also want to provide our customers with all of the necessary equipment and resources to help your park succeed. A one-stop-shop for all things trampoline!

Our Shock “grip socks” are comfortable, durable, machine-washable, and most importantly, they have exceptional rubberized sole grips! Since Shock socks are made of the highest quality material on the market, you won’t run into problems of picking rubberized pads off of your trampolines and floors.

PARTY CROWNS

Celebrate in style with these mini gold party crowns that come with an elastic string to affix around the head. Our party crown packs come in quantities of six each. These crowns are the perfect addition to any birthday celebration.

MAKE PARTY-GOERS FEEL LIKE ROYALTY!

7 x 1.5 x 4.2 inches

Our crowns are suitable for all ages and custom-made specifically for family entertainment centers. They are small enough for toddlers and teenagers are entertained by small crowns on big heads. These crowns are the perfect solution for your birthday party guests of honor.

BULK PRICING DISCOUNTS AVAILABLE!

Crowns are purchased in packs of 6, or they can be purchased in bulk at 167 packs of 6, for a total of 1002 crowns.

ADJ LIGHTING

Discover a world of brilliant possibilities with ADJ Products, a renowned global manufacturer specializing in entertainment lighting, state-of-the-art LED video technology, and atmospheric effects equipment. At Shock Trampoline, we take immense pride in being a Certified Reseller of ADJ Products. Our catalog boasts a dazzling array of offerings, ranging from cutting-edge fog machines to precision-engineered moving heads, mesmerizing beam moving heads, and UV black lights. Elevate your entertainment experience with ADJ Products, where innovation meets excellence.

PAST PROJECTS

Shock is the leader in innovating and patenting technologies for the trampoline park industry.

CUSTOMER TESTIMONIALS

"We have worked with the team from Shock Trampoline from the very beginning of our expansion project. We have received nothing but outstanding reviews when it comes to our Trampoline Park. They were great in every phase of the project from the design, the build, the install and the ongoing support.

Not only do they provide an outstanding product, but the wealth of knowledge they possess in operating their own parks is an immeasurable asset to us."

Tim Geraci
Executive Director
Silver Lake 'The Family Place'

"Like everyone else starting out, we looked at a lot of Trampoline manufactures. We visited countless locations across the country looking for the perfect fit. We wanted our equipment to be the safest and most durable we could find. Shock Trampolines have exceeded that expectation. However what really drew us to Shock was their experience in being great operators. They not only became partners with us in designing the best trampoline park, they guided us on how to run a successful operation. Building these are one thing and it is critical it is done right. Operating these parks right is what will create continued success.

Shock is the total package from design to operations and they come with my highest recommendations."

Jeff Gebhart
CEO
Craigs Cruisers

PAST PROJECTS

We have had the pleasure of being in the trampoline park industry for eight years. In all eight of those years, we have never experienced anything as revolutionary as the Shock Trampoline system. The greatest concern of all operators is the safety of the park. As with any physical activity, jumping on trampolines carries inherent injury risks. In our experience, injuries are more likely to occur on the main jump floor of a park over any other area in our park. Jumpers would land on the padded steel frames, and with a traditional trampoline park structure where the frames lack any form of shock absorption, the force of impact was directed into the jumper's ankles, knees, hips, and back. With the Shock Trampoline system, our jumpers are better protected because the frames themselves absorb the impact. There isn't a single car on the road today without shocks - because once they were invented, they changed the industry standard. Shock Trampoline is a leader in resetting standards within the trampoline park industry.

The Shock Trampoline system has more proved than itself to be a much safer alternative to traditional frames. We cannot recommend the Shock Trampoline system enough! If you say that you care about the safety of your guests, then you must utilize the Shock system. Shock is the best product on the market that has provided a solution to an industry-wide issue.

Besides the product, the people behind the Shock system are great to work with and truly care about their projects. We worked hand-in-hand with their sales consultant on our project and he was always available to answer a text, phone call, or e-mail. Whenever we had specific requests, he was always quick and efficient with returning our revision. The Shock team offered us numerous suggestions based on their own experience owning and operating parks and listened to our desires to create the best layout for our space. During install, their team arrived on time, ready to work, and got it done quickly! We've visited them at IATP and IAAPA and continue to contact their team well beyond our park opening because we enjoy bouncing ideas back and forth and hearing what they have coming up next! If you are building a new park, or upgrading an existing park, you will not regret choosing Shock Trampoline!

WHY CHOOSE SHOCK?

	SHOCK ADVENTURE PARK ATTRACTIONS	COMPETITORS
American Made:	Yes, All components besides Bansbach German gas shock are American made and meet all American and European Standards	No. Many competitors use foreign made products that may not comply with industry standards.
ASTM/PAS Compliant:	Yes	Unknown
Steel Detail:	Plate-ASTM A36-14: 1/4", 3/8", 1/2" & 5/8" thickness Tube Steel- ASTM A500-13: 2-1/2" x 2 1/2" x 3/16" Angle- ASTM A36-14: 2" x 2" x 1/4"	Unknown
Anchor Bolt Detail:	LDT Tapcon, Galvanized 5/8" x 6" 1/2" x 4"	Unknown
Bolt Grade:	Grade 8 Bolts 3/4" x 8" 1/2" x 8" 1/2"x 4-1/2"	Unknown
Frame Style:	Steel with German gas shocks	Straight steel, cable systems
Patented Impact Attenuation Shock Absorbing:	Yes. Patented design with German gas shocks in every internal post allows for impact absorption during hard impact. Does not effect bounce	No. Straight steel has pads as only impact protection.
Base Plates:	1/4" to 5/8" Base plates span and attach at all support posts, cut from single sheet of steel, creates additional support and prevents flexing. Reduces maintenance worries and liability concerns.	Small Base plates on each post and support arm that do not connect to support arms. Allows flexing and promotes breaks in welds. Leads to significant issues and increased liability.
Swing-Up Rails For Easy Maintenance?	Yes. Removal of one bolt allows bed rails to swing up for ease of access during maintenance. Allows for lifts to be driven in for safe overhead maintenance.	No. Bolted into sleeve or welded together permanent structure with no opportunity for removal during maintenance. Requires ladders be used for dangerous overhead maintenance.
Trampoline Stand Post Supporting Kick Braces:	Yes. Every post has full length support arms to stabilize the structure and prevent dangerous issues associated with bent posts caused by tension from springs and jumping.	No. Many competitor structures do not include support arms on posts. This leads to dangerous conditions that are impossible to see without being underneath the trampoline structure.
Spring Connectors:	3/8" Cold Rolled A36 hard stock spring connectors match diameter of spring hook. Creates silent operation and increases spring life. Reduces maintenance and liability concerns.	1/4" wiggle wire or holes cut out. Creates additional spring wear and causes loud, creaky operation. Requires constant inspection to catch issues as they arise. Small gauge wiggle wire is commonly torn from structure due to constant strain. Creates dangerous conditions that are hard to identify until accident happens.
Floor To Wall Trampolines:	Yes. No corner pad present where flat trampoline transitions to vertical. Smooth trampoline transition reduces opportunity for ankle injuries.	Vertical trampolines do not transition into flat trampolines. Corner pad is necessary to cover steel. Creates dangerous transition where feet, ankles, and legs can become stuck during activity and cause serious injuries.
Redundant Safety Trampoline:	Yes. All Shock Structures include redundant trampoline as additional safety standard. Shock Trampoline owns patent for Redundant Beds.	Yes/No. Not all competitor manufacturers include redundant trampolines
